Exchange Study Plan

Name _____   Student number _____

UBC Faculty_____   UBC Major / Minor _____

I plan to go on Exchange in Term_____of the_____year of my degree. When I return, I will have_____terms left.

Use this Study Plan to identify 6-10 courses you could take at each of your top three exchange university choices and include it with your Go Global exchange application.

Plan for success:

- See how exchange through Go Global fits into your UBC degree
- Familiarize yourself with program and course offerings at your top three partner university choices
- Identify opportunities to fulfill elective, program and degree requirements while on exchange
- It is your responsibility to ensure that the universities you apply to are good choices for you
- Note that course content and availability at your host university may change; Go Global *cannot guarantee* access to specific courses or whether available courses will meet your degree requirements
- This plan will **not** be used for your actual course registration at your host university.

Not sure where to start?

- Check your Degree Navigator or speak with an Advisor in your faculty to determine the best time to go on Exchange:
  - which credits do you still need to fulfill (e.g. requirements, electives…)
  - when are your degree required courses offered at UBC? (e.g. only offered in term 1)
- Review the Partner University Pages for institutions you're interested in to:
  - connect to the partner's website and find out what courses are typically offered
  - verify the credit equivalency ratio to determine how the partner credits will transfer back to UBC
  - use the Transfer Credit Search Portal to see examples of previous courses other UBC students have transferred back from exchange
- On the partner university's own course website:
  - note that course catalogues for your term abroad might not be published yet; choose potential courses from the most recent listings
  - look for courses that are open to exchange students
  - remember to check the language of instruction
  - check the level of the course and if there are any pre-requisites
- Review the exchange Transfer Credit Process for your UBC campus (Vancouver or Okanagan) to understand how your exchange credits transfer back to UBC:
  - depending on the course content, courses you take on exchange can transfer back as equivalent to a specific UBC course (e.g. PSYC 331), unassigned credit at the department level (e.g. PSYC 3rd), unassigned credit at the faculty level (e.g. ARTS 1st) or Elective credit (ELEV 1st).
  - note relevant deadlines for initiating review of your courses for transfer credit
